A short note

Sue is the top student in her class at Beijing SunshineSecondary School. Her favourite subjects are English, Maths and Science.

She does well in exams, but she still has some problems. She is not very good at sport. She cannot run fast and hates swimming. Also, her classmates call her a bookworm. This makes her feel bad.

**I told her what to do in PE lessons.
She should just try her best
and enjoy the exercise I also
told her not to pay any attention to
the students who laugh at her.**

Now, Sue seems much happier than before . She still finds sport difficult for her but now she can talk to her best friend Betty when she feels sad and share her problems with her. She is also proud of her school work.
