Acknowledgements

I would like to give my sincere thanks to my supervisor Li Chuangjin for teaching me how to write my research paper and generously help me to revise it. In

preparation of the thesis, he has spent much time helping me collect referential materials and provided me with inspiring advice. Without his patient instruction, insightful criticism and expert guidance, the completion of this thesis would not have been possible.

I also owe a special debt of gratitude to all the professors in the School of Foreign Languages from whose devoted teaching and enlightening lectures I have benefited a lot and academically prepared for the thesis. And also I would like to appreciate all my classmates who gave me lots of helpful suggestions.
