
天津市滨海新区塘沽河滨公园景观规划设计

摘 要

本设计根据天津市滨海新区塘沽河滨公园现有场地及周边环境，保留原有地形地貌和原有建筑，遵循“以人为本”的设计原则，结合现代城市景观的设计特色，对天津市滨海新区塘沽河滨公园进行合理分析与重新规划，力求设计出一个人性化、有特色的城市休闲公园，契合居民重返大自然的需求，提供供居民休闲娱乐、陶冶性情和释放压力的空间场所。

在规划的同时，设计中巧妙地把植物、硬质铺装和水通过不同的功能分区融合到一起，达到你中有我，我中有你的大自然的和谐环境。通过文化与历史的结合、开放与封闭的组合、休闲娱乐与休憩观赏的衔接、生态化与人性化的融合的设计手法来满足不同层次、不同需求的居民与游客的需要。植物种植方面根据天津市地域性特点设计，充分利用乡土树种，采用乔、灌、草结构的组合，为城市居民提供观赏、休闲、游憩、文化交流于一体的公共绿地。

关键词：城市公园；景观规划；绿化设计；休闲

Abstract

According to the existing site and surrounding environment of Tanggu Riverside Park in Tianjin Binhai New Area, the original landform and original building are retained. Following the design principle of "people-oriented", combined with the design features of modern urban landscape, the rational analysis and replanning of the Tanggu Riverside Park in Tianjin Binhai New Area are made, and a design is made. The humanized and characteristic urban leisure park fits the needs of residents to return to nature, and provides a space for residents to entertain, edify and release pressure.

At the same time of planning, the design cleverly integrates plants, hard pavement and water through different functional partitions to achieve a harmonious environment of your nature. Through the combination of culture and history, the combination of openness and closure, the link between leisure and recreation and viewing, and the combination of ecology and humanization, it can meet the needs of residents and tourists of different levels and different needs. According to the regional characteristics of Tianjin, plant planting is designed to make full use of local tree species and the combination of tree, shrub and grass structure to provide public green space with ornamental, leisure, recreational and cultural exchanges for urban residents.

Key words: Urban Park; Landscape Planning; Greening design; Leisure
