

爱护环境保护地球的英语作文

关于爱护环境保护地球的英语作文（精选 27 篇）

在日常学习、工作抑或是生活中，许多人都有过写作文的经历，对作文都不陌生吧，借助作文可以提高我们的语言组织能力。你知道作文怎样才能写的好吗？以下是小编收集整理的关于爱护环境保护地球的英语作文，仅供参考，希望能够帮助到大家。

爱护环境保护地球的英语作文 篇 1

Humans have only one earth, it is the survival of the resources. The earth is our home, so we should protect the earth, rather than destroy it. In recent years, the earths environment is more and more bad, large forests have been cut down, the green mountains are mining, large and beautiful grassland into desert, the clear river into the gutter. Trees less, castle peak bald, grassland drought, the river dark and people living environment deteriorate, breathing the air of the...Therefore, the human diseases are much more.

Now fewer and fewer trees, it is because people are cutting down trees, so the trees will be less and less, so we cant breathe more fresh air,we will suffer from SARS, bird flu, and so on disease, make our physical deterioration, let these viruses easily into our bodies. Constantly cut down trees, during typhoon comes, will be able to withstand the typhoon, we human suffering or not?

Increased over the past few years, the factory, the discharge of wastewater are also constantly increased, sewage discharge in a nearby stream, often make originally on the from the economize on water, perhaps everyone will say, cant waste a few drops of water damage the environment. Waste everyone a few drops of water all over the world, if everyone is a waste of three

drops of water, the waste water fifteen billion five billion people all over the world, if gave to the places where the drought, the water can save many people! Save water, everybody is responsible for, so we should save every drop of water, do not waste every drop. Otherwise, the last drop of water on the earth will be human tears!

Humans have only one home - the earth, it is a place where human beings rely on, we want to protect it.

爱护环境保护地球的英语作文 篇2

Our campus is a picturesque, fascinating. Don't believe, you see: The grass in the botanical garden has grown green tender buds, and the flowers have revealed the charming smile, and the green trees extend out of the lush branches. Every morning, the students go to the school morning to the school, with the joint efforts of everyone, the campus air is fresh, the environment is beautiful, and it is clean, and it is refreshing. Today, the Brigade Committee arranges me to check the duty of the total value. I am joy to the school in front of the technology building? How did a small white paper in front of no reason? I think: I must just throw the piece of paper that wipes the nose. Then my eyes aimed at a circle around, I hope to find out the initiator.

Many people have passed from the front, but no one has picked up the pile of paper. Just as I want to pick up the paper, I will see a familiar figure when I throw it into the trash can. I saw her bent down and picked the paper, threw it into the garbage truck in the distance, which was laughing. Do you know who she is? She is my good friend Cai Sicheng. In the class, she loves labor, pays attention to hygiene. After school, I will take the initiative to organize the desk chair, and the class has found that there are students to lose the garbage. what! Si Zicheng, your spirit of this

love environment is worth learning!

Only one of the earth, loves the earth, everyone is responsible, the care environment should be started from me, everyone should manage himself, don't throw garbage!

爱护环境保护地球的英语作文 篇3

Green water show in the future there is a mountain city, the mountain forests, lush; A stream of water on the bottom; Air pure and fresh and sweet. Industries where there is no smoke, no river floating in a plastic bag, without being cut down trees, only a piece of green.

In the future, humans and animals and plants live in peace, a shotgun into each bird, chainsaw into hits the thick, strong, tall and straight trees, the atomic bomb in the museum, and pulled down the factory chimney, spread a far-reaching blue sky... Then have no the word "cage" in the world, it is full of human and animal for a walk, play games together. To do this, human also built a school to educate minors, animal, building on the twelve golden characters: the "people live in harmony, to build better homes!"

However, the future may also be another scene like: neat rows of factory was built on the hillside, its discharge smoke originally caused pollution became gray sky. The river became smelly, dark, light, cutting down the trees bare stumps, there are many, white plastic bags. Many years later, a sandstorm thoroughly changed all that, that day, dust storm flood came, the whole world of darkness covert, dust storms have been shaved nine days nine nights, all the cities, factories are all turned into desert, everything vanished.

Kid, the above two kinds of the future city which one do you want to let the world be? If you want the first kind, is to protect

the environment, e on!

在未来有一个山青水秀的城市，山上的森林郁郁葱葱；小溪的河水清澈见底；空气清新甜润。那里没有工厂排出的浓烟，没有河上漂浮的塑料袋，没有被砍伐的树木，只有一片的绿色。

在未来，人类与动植物和平相处，猎枪变成了一只只的小鸟，电锯变成了一棵棵粗壮、结实、挺拔的大树，在博物馆展出，而工厂的烟囱被拆掉，铺成了湛蓝深远的天空……那时世界上已经没有了“笼子”这个词，处处可见人类和动物一起散步、做游戏的场景。为此，人类还建了一所学校来培养未成年人、动物，教学楼上闪着十二个金灿灿的大字：“大家和谐相处，共建美好家园！”

然而，未来也可能是另外一种景象：一排排的工厂整齐的被建在山坡上，它排出的浓烟把原本瓦蓝瓦蓝的天空污染成了灰色。河水变得臭了、黑了，树木被砍光了，裸露的树桩上有许多的、白色的塑料袋。许多年以后，一场沙尘暴彻底改变了这一切，那一天，沙尘暴铺天盖地袭来，整个世界昏天暗地，沙尘暴一直刮了九天九夜，所有的城市、工厂全变成了沙漠，一切都消失了。

小朋友，以上两种未来城市你想让世界变成哪一种呢？如果想要第一种，就赶快保护环境，行动起来吧！

爱护环境保护地球的英语作文 篇 4

We live in the beautiful earth, it's a pity that the earth is every day under the various odor, chemical items, poison, carrion, automobile exhaust, livinggarbage, factoriesand so on dirty garbage pollution, make our lovely earth gradually degradation. So to protect the environment is the duty of every man.

Plants and trees is human natural oxygen "manufacturer". But the deforestation, the destruction of the ecological balance of nature; Sand dunes to gobble up the fertile land, white; Floods can be our lovely home. Relentless stuff we clear the river becomes cloudy. Dense forests become sparse clutter, the blue sky become dark, green mountains become bald. Mud-rock flow,

dust storm, flood...These disasters are caused by a dirty environment. So we should protect the environment.

How to protect the environment? First of all, can't litter, saw rubbish pick up, is the environment become clean and beautiful. Second, do not arbitrarily trample flowers and plants trees. To plant trees, a variety of flowers and plants.

Electricity, bring us all kinds of convenience, especially gives us light, lit up the colorful world. But we want to save electricity, because electricity is mostly produced by burning coal. Save electricity is to save from coal, less waste, and only enough storage of coal mining in our country in one hundred years! We think, more than one hundred years later, our children and grandchildren to do? So we should save electricity, the usual lamp, use energy-saving light whenever possible.

Protect the environment, everyone duty. Let's start from me, start from now, start from the side of dribs and drabs.

我们住在美丽的地球上，可惜地球每天都饱受着被各种臭气、化学物品、毒汁、腐尸、汽车尾气、生活垃圾、工厂垃圾等等肮脏污染，使我们可爱的地球逐渐退化。所以保护环境是每个人义不容辞的责任。

花草树木是人类的天然氧气“制造厂”。但人们乱砍乱伐，使大自然的生态平衡遭到了破坏；沙丘吞噬了万顷良田；洪水冲毁了我们可爱的家园。无情的杂物把我们清澈的河水变得浑浊。茂密的森林变得稀疏杂乱，蔚蓝的天空变得灰暗，碧绿的青山变得光秃。泥石流、沙尘暴、水灾……这些灾害，都是由肮脏的环境造成的。所以我们更应该保护环境。

如何才能保护环境呢？首先，不能乱扔垃圾，看到垃圾就捡，是环境变得整洁优美。其次，不要任意践踏花草树木。要多植树，多种花草。

电，给我们带来各种便利，特别是给我们带来了光明，照亮了五彩缤纷的世界。但是我们要节约用电，因为电大多是烧煤产生的。节

约用电就是节约用煤，少排废气，而在我国储藏的煤只够开采一百多年了！大家想想，一百多年以后，我们的子孙后代该怎么办？所以我们要节约用电，平时的照明灯，尽可能用节能灯。

保护环境，人人有责。让我们从我做起，从现在做起，从身边的点点滴滴做起。

爱护环境保护地球的英语作文 篇 5

Secondary school students as our primary task is to do a good job learning that is the protection of the environment on the basis of the knowledge you learn in their own minds, they can form a sense of environmental protection only do you have about your sense of action in order to have the idea then you have to do our best to influence People around to learn about the environment to understand the importance of environmental protection and you will make every effort to persuade friends and family and You fight side by side together to protect our common Earth

爱护环境保护地球的英语作文 篇 6

Now in some places of our country, a number of people have been cutting down the trees in the forests because they need wood and more farmland. The areas of forests are getting smaller and smaller. Some scientists say that there will be no vast forests in 20 or 30 years. It is really a terrible thing. Where the forests disappear, dust storms will occur occasionally. The weather will get hot and dry. The whole earth will become a big desert. A lot of plants and animals will disappear. Crops will not grow anywhere. Life will be difficult for everyone. The human beings will be punished for their forest-destroying activities.

Therefore, we should realize the importance of taking care of our forests. We should do our best to protect our living environment and keep our mountains green, the water clean,

and the sky blue.

爱护环境保护地球的英语作文 篇 7

Each and every one of us is responsible for the greenhouse gases we emit in our daily actions and choices. Therefore, combating climate change is going to take the combined efforts of everyone on the planet. The average household carbon footprint in China is 2.41 tons of carbon dioxide annually. That 's enough to fill half an Olympic swimming pool. Surprised Well, here 's how you can work to reduce it:

1. Get started by calculating your own carbon footprint. This will give you a starting point from which to begin monitoring your progress. You enter details such as what sort of apartment you live in, your personal energy use and travel habits.
2. Each week, choose one day when you don 't eat meat. Meat uses up lots of energy because it takes a long time to produce. Animals produce methane, which is another dangerous greenhouse gas, when they burp and fart.
3. Only buy the amount of food you need and if there are leftovers, get creative. For instance, make them into a soup. Ask to take food home from restaurants if there 's some left, but remember to take your own container to avoid using a disposable carton.

An activity about low carbon living Currently, my school is launching an activity whose theme is that actions change the world to advocate the low carbon living. In the activity, we are required to go to school or some other place by bike or by foot as much as possible instead of by bus. And when Christmas comes, sending e-greeting cards instead of traditional cards of which are made of wood as we know. Besides, we should use both sides of every piece of paper and we should save water as well as electricity. Believe that only we do thus can we have a better

living environment.

爱护环境保护地球的英语作文 篇 8

Although the world develops much faster and better, the resources on the earth get fewer and fewer. In order to protect them, something must be done. Save water. Water is the source of life. No water, no life. So it's very important for us to do so. Not only should we protect drinking water and stop polluting it, but also make full use of it. Save electricity. It is crucial. We can't imagine what the life will be like without it. Everyone should do his best to save electricity. Don't forget to turn off lights or other electric machines when we finish working. Save forests. They are useful. Please stop cutting them down and use recycled paper instead. Make our world a green one to live in. Recycle useful rubbish. Plenty of rubbish can

be recycled like cans, paper, bottles, and so on. We can save resources in this way. The

Nowadays, with more and more such as the increasing global temperature, the and the , people are recognizing the importance of developing now. There are many ways we can do to reach the low-carbon

economic. Firstly, discovering other fuels which is more clean and more green to instead of the using of carbon. Secondly, we should have the conscious and do something which we can make, for instance, using the bus rather than car when you go out, re-use the thing that can be used, reducing the use of. Last but not least, we should do other green plants, in which way we can not only

environment, but also can make our home more beauty. In my opinion, the most important thing to reach the low-carbon economic is everyone must try their best do what they can do for

it. Once everyone has the sense of low-carbon economic and have the action by

themselves, it will be earlier to reach it.

爱护环境保护地球的英语作文 篇 9

Each and every one of us is responsible for the greenhouse gases we emit in our daily actions and choices. Therefore, battling climate change is going to take the bined efforts of everyone on the planet. The average household carbon footprint in China is 2.41 tons of carbon dioxide annually. That 's enough to fill half an Olympic swimming pool. Surprised Well, here 's how you can work to reduce it:

1. Get started by calculating your own carbon footprint. This will give you a starting point from which to begin monitoring your progress. You enter details such as what sort of apartment you live in, your personal energy use and travel habits.

爱护环境保护地球的英语作文 篇 10

The Low-carbon Economic

Nowadays, with more and more serious problems such as the increasing global temperature, the melting ice and the rising sea-leveling, people are recognizing the important of developing the low-carbon economic now.

There are many ways we can do to reach the low-carbon economic. Firstly, discovering others fuels which is more clean and more green to instead of the using of carbon. Secondly, we should have the save-energy conscious and do something which we can make, for

instance, using the bus rather than car when you go out, reuse the thing that can be recycle used, reducing the use of plastic bags. Last but not least, we should plant more trees or other greenplants, in which way we can not only improve the environment, but also can make our home more beauty.

In my opinion, the most important thing to reach the low-carbon economic is everyone must try their best do what they can do for it. Once everyone have the sense of low-carbon economic and have the action by themselves, it will be earlier to reach it.

爱护环境保护地球的英语作文 篇 11

Nowadays the environmental problems are getting more and more serious. It's important to protect the environment. So for us, it's our duty to protect our earth in our daily life.

We often drink bottle water during the trip or after physical exercise. I usually collect the plastic bottles I used and put them

together. In my spare time I sell them to the people who recycle them. Also, I use a recycle bag instead a plastic one when I go shopping. Besides I use the both sides of the paper when I do homework.

I can advise my parents to drive less and I can suggest my classmates not wasting food. I think if we all get together, we can make a different.

爱护环境保护地球的英语作文 篇 12

Many people are active in fighting against unfair treatment to colored people, women , animals and so on. Right now I am talking about fighting for respect to our environment. Though the environment doesn' t have a mouth to deprecate what humans have done to her, she retaliates through action. In the early years the Chinese cut down large quantities of trees, at the source of the yellow river, which led to the disappearance of big forests and terrible floods. As a result, the Huangtu plateau which was once covered with grass and forests was turned into barrens that supported fewer plants. Another example was in several developed countries. Because many chemical factories discharged poisonous gas without filtering it, cities were covered with so much poisonous gas that people were killed by the air they breathed in. What horrible scene!

What we are suffering is only a small part of what the nature once suffered. If we don' t take action to show respect to the environment, we will have to face an increasingly awful situation.

Measures should be taken to protect the environment on which we are relying. First governments should forbid destroying vegetation, rivers and lakes, oceans, as and the atmosphere as well. Second voices should be made to announce the public of the importance of protecting the environment. Third enterprises

should pay special attention to the effect they have on the environment and work out solutions for the problems.

Only by changing the way we treat the environment can we get along well with it. Only by saving the environment can we save ourselves.

很多人都活跃在对抗不公平待遇有色人种、妇女、动物等。现在我谈论要争取尊重我们的环境。尽管环境没有嘴巴来反对人类对她所做的一切，她通过行动来报复。在早些年中国人在黄河的源头大量砍伐树木，导致了大森林的消失和可怕的洪水。结果，曾经一度覆盖草地和森林的黄土高原变成了植物稀少的荒漠。另一个例子是在一些发达国家。因为许多化学工厂没有过滤就排放有毒气体，城市充满了如此多的有毒气体，人们通过呼吸这些空气受到伤害。这是多么可怕的情景！

我们所痛苦的是只有一小部分的自然曾经收到破坏。如果我们不采取行动，尊重环境，我们将不得不面对一个日益糟糕的情形。

保护环境应采取我们依赖的措施。首先政府应该禁止污染植被、河流和湖泊、海洋和大气。第二，应该宣布公众保护环境的重要性。第三，企业应特别注意对环境的影响和解决方案的问题。

只有通过改变我们对待环境的方式，我们才可以相处得很好。只有拯救环境，我们才能拯救我们自己。

爱护环境保护地球的英语作文 篇 13

Environmental problems are becoming more and more serious all over the world. For example, cars have made the air unhealthy for people to breathe and poisonous gas is given off by factories. Trees on the hills have been cut down and waste water is being poured continuously into rivers. Furthermore, wherever we go today, we can find rubbish carelessly disposed. Pollution is, in fact, threatening our existence.

The earth is our home and we have the duty to take care of it for ourselves and for our later generations. Fortunately, more
