

3R 原则下农村生活垃圾处理 模式的法律问题研究

——以湖北农村地区为例

摘要

近年来，我国各省市积极推进新农村建设，农村规划和发展进入攻坚时期，进入最后的冲刺阶段。在面对生活垃圾这个无可避免的问题上，全国各地一直都在不停地为建设完善的垃圾处理制度而努力，虽然取得了很大进展，不可否认的是，现在看来这仍然是很困难的课题，依然会面对很多麻烦和障碍。在施行目前垃圾处理制度的过程中，我们越来越明显地感受到把重心放在污染防治和末端处理上是难有成效的，现在大多数人仍然把垃圾看成是污染环境的罪魁祸首，这是对垃圾的错误认知，因为他们没有意识到其实随着科技的进步，垃圾也可以成为很好的资源，因此，更为有效的举措是在事前防范和源头治理的法律规范上，让垃圾处理形式成为一个有序的系统，然后通过垃圾形成的源头，运输过程和最终处理各个阶段建设法律制度，从而形成一整套农村生活垃圾处理的完整法律体系，通过梳理相关文献和相关的法律法规，以期有效解决农村生活垃圾处理模式中法律问题提供借鉴和参考。

Abstract

In recent years, China's provinces and cities actively promote the construction of new rural areas, rural planning and development into the critical period, into the final sprint stage. In the face of the inevitable problem of household garbage, all parts of the country have been working hard to build a sound garbage treatment system. Although a lot of progress has been made, it can't be denied that it is still a very difficult subject and will still face many troubles and obstacles. In the municipal solid waste treatment system in the process of the implementation, we increasingly feel focus on pollution control and terminal treatment is difficult to effective, now most people still put the rubbish as the chief culprit of environmental pollution, this is the wrong cognition of the rubbish, because they don't realize that in fact, with the progress of science and technology, the garbage can become a good resource, therefore, more effective measures is to guard against and source in advance management of legal norms, make garbage disposal form an orderly system, and then through the garbage form the source of transport process and the final processing stages construction of legal system, Thus, a complete legal system of rural household waste treatment is formed, and relevant literature and relevant laws and regulations are sorted out to provide reference for effectively solving legal problems in rural household waste treatment mode.
