AERO.

There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't look even slightly believable.

# about

Using computer-animated faces, researchers from the University of Minnesota have figured out the specific traits that make up a winning smile. To learn what makes some smiles cute and others creepy, researchers created 27 different grins on the same computer-generated face. For each smile, they varied its toothiness, angle, width, and degree of crookedness.

The smiles were shown to 802 participants at the Minnesota State Fair to rate each one on its effectiveness, genuineness, pleasantness, and the emotion expressed.

Thanks
