### 三、阅读第一节(第1题7.5分, 其余每题10分, 总37.5分)

#### 第一题

Passage:

The rise of e-commerce has revolutionized the way people shop. With just a few clicks, consumers can purchase products from all over the world, saving time and effort. However, this convenience has raised some concerns about the impact on traditional brick-and-mortar stores.

One of the main advantages of e-commerce is the vast selection of products available. Online retailers can offer a wider variety of items compared to physical stores due to lower overhead costs. This has made it easier for consumers to find exactly what they are looking for, without having to visit multiple stores.

On the other hand, e-commerce has also had a negative impact on traditional retail. Many local businesses have closed down due to increased competition from online stores. This has led to job losses and a decrease in the economic activity in some communities.

Despite these challenges, some traditional stores have adapted by embracing technology. For example, they have started to offer online shopping options, integrating their physical and digital presence. This hybrid approach has allowed them to attract a wider customer base and increase their sales.

1、What is the main topic of the passage?

A. The benefits of e-commerce

B.The challenges faced by traditional retailers

C.The impact of e-commerce on the economy

D.The rise of online shopping

2、 Why is there a concern about the impact of e-commerce on traditional stores?

A.E-commerce stores do not pay taxes.

B.E-commerce stores have lower overhead costs.

C.E-commerce stores do not provide good customer service.

D.E-commerce stores are not regulated.

3、 According to the passage,what strategy have some traditional stores adopted to survive?

A.Closing down their physical stores and focusing on online sales.

B.Raising prices to compete with online retailers.

C.Offering online shopping options and integrating their physical and digital presence.

D.Cutting costs by reducing staff and inventory.

4、 Which of the following statements is NOT mentioned in the passage?

A.E-commerce has led to job losses in traditional retail.

B.Online retailers can offer a wider variety of products.

C. Some traditional stores have merged with e-commerce platforms.

D. E-commerce has saved consumers time and effort.

Answers:

1、 B

2、 B

3、 C

4、 C

## Second Question

### Reading Comprehension-Section A

*Read the following passage and answer the questions that follow.*

#### The Rise of E-commerce: Changing Consumer Behavior

In recent years, e-commerce has transformed the way people shop, offering convenience, a wide variety of choices, and often more competitive pricing than traditional brick-and-mortar stores. This shift is not only affecting how businesses operate but also changing consumer behavior in profound ways.

One of the most significant impacts of e-commerce is the 24/7 availability it offers to consumers. Unlike physical stores with fixed operating hours, online shopping platforms can be accessed at any time, making it possible for customers to make purchases whenever they want. This flexibility is especially appealing to those with busy schedules or who live in areas where retail options are limited.

Another advantage of e-commerce is the vast selection of products available. Online marketplaces can host millions of items from sellers around the world, providing a level of choice that no single physical store could match. This abundance of options means that consumers can find exactly what they're looking

for,even if it's a niche product.

However,e-commerce also presents challenges.One major concern is the security of personal and financial information.With an increasing number of data breaches and cyber-attacks,many consumers are wary about sharing their details online.To address this,leading e-commerce companies have implemented advanced security measures to protect user data,such as encryption and two-factor authentication.

Moreover,the environmental impact of e-commerce cannot be overlooked.The increase in online shopping has led to a surge in packaging waste and carbon emissions from delivery vehicles.In response,some companies are adopting more sustainable practices,such as using biodegradable materials for packaging and optimizing delivery routes to reduce fuel consumption.

Despite these challenges,the growth of e-commerce shows no signs of slowing down.As technology continues to evolve,it is likely that we will see even more innovative solutions that further enhance the online shopping experience.For now,both consumers and businesses must adapt to this new reality,embracing the benefits while working to mitigate the drawbacks.

Questions:

**1.What is one of the most significant advantages of e-commerce highlighted in the passage?**

- Answer:One of the most significant advantages is the 24/7 availability it offers to consumers,allowing them to make purchases at any time.

**2.How does e-commerce provide a greater variety of products compared to traditional**

stores?

- Answer: E-commerce platforms can host millions of items from sellers around the world, offering a much wider range of choices that no single physical store could match.

3. What is a major concern for consumers regarding e-commerce, and how are companies addressing this issue?

- Answer: A major concern is the security of personal and financial information. Companies are addressing this by implementing advanced security measures such as encryption and two-factor authentication.

4. What environmental challenge is associated with the rise of e-commerce, and how are some companies responding to it?

- Answer: The environmental challenge includes increased packaging waste and carbon emissions from delivery vehicles. Some companies are responding by using biodegradable materials for packaging and optimizing delivery routes to reduce fuel **consumption.**
