10. A. watch                      B. learn                            C. cook                            D. order

## 五、阅读理解（30分）

14、Everyone needs friends. There is an old saying, “Friends are God’s way of taking care of us.” But how do you find a real friend and keep it?

The American writer Sally Seamans tells young students some smart ways to find friends. Sally says finding a friend is just like planting (种植) a tree. You plant it and take care of it to make it grow (成长).

First, you should choose a friend. What makes a good friend? It is not because a person has money or good looks. A good friend should be kind and patient (耐心). For example, if you have a bad day, a good friend should do his or her best to help you. To make a friend, you can’t be too shy. You should make each other happy and share your lives.

But things can’t always be happy. Even the best friends have fights. What should you do when you have a fight with your friend? You have to talk to him or her. When there is no one around, have an honest talk. If he or she doesn’t want to talk, you could write a letter.

There are three steps to being friends again:

Tell him or her how you are feeling, say what your friend has done wrong, and explain why you did this or that. Remember that friendship is the most important thing in your life.

1. Sally wants to tell students the ways to \_\_\_\_\_.

- A. find friends                      B. plant trees                      C. get happy                      D. keep healthy
