My mother was telling me about how she and

her family got their first television when she was a teenager. Of course, it was black and white. She said she only watched it at night. When I was young, we had only about 3 or 4 different channels. My brothers, my sisters and I would sometimes fight about which channel to watch. But we usually enjoyed the same shows.

Nowadays, we can get hundreds of channels on TV. There are channels with old movies, cooking, fishing and so on. It's amazing! I wonder how much my brothers, my sisters and I would fight if we had

hundreds of channels when I was a child. Of course, we had only one television set. These days I notice families with 2 or 3 or more television sets in their homes. I guess it stops people from arguing over which channel to choose.

- ()1. In the old days, what kind of television sets did people only have?
- A. Black and white ones.
 - B. Colors ones.
 - C. All kinds of television sets.
 - D. Both A and B.

()2. My mother watched TV _____ when she was young.

- B. in the afternoon
- C. at night
- D. at noon

()3. Nowadays, how many channels can we get on TV?

- A. 3 or 4 different channels.
- B. Only one channel.
- C. Hundreds of channels.

D. Several channels.

() 4. When I was a teenager, my brothers, my sisters and I usually enjoyed _____.

A. four shows

B. the same shows

C. different shows

D. hundreds of shows

() 5. Which of the following is NOT true?

Marconi, an Italian inventor, who gave us the radio, probably didn't know how much his great invention would have done for the world in the years to come. Radio has perhaps done as much as any other

communication tool. Things of the world can be reported to people everywhere a few seconds after they happened. Travelers in out-of-the-way places, ships at sea, and even astronauts round the earth are able to keep in touch with each other by radio.

Television is another important invention. It lets us see as well as hear the actor. Since it was invented, TV has done a great deal in the daily life of people everywhere. Many programs are now televised on TV.

Perhaps the most modern invention is “Tel-

star”, a “star” moving around the earth. It makes it possible for the people all over the world to be closer than ever before. Now on TV a family in Chicago can watch a motor car race in Italy, a table tennis competition in Beijing or a volleyball match in Japan as these events are actually happening!

()6. How many kinds of inventions does the writer mention in the article?

A. One.

B. Two.

C. Three.

D. Four.

()7. Where does Marconi come from?

A. America.

B. France.

C. Italy.

D. Japan.

() 8. What does the underlined phrase mean in Chinese?

A. 不合适的

B. 偏僻的

C. 尽力的

D. 繁华的

() 9. When the writer introduces Marconi in the first paragraph, he means _____.

A. he is just an Italian inventor

B. his invention has done much for the world

C. he reported much to people all over the world

D. he helped people travel a lot around the world

()10. What is “Telstar” used to do according to the passage?

A. To receive and store information.

B. To move around the earth just like the moon.

C. To give light to the earth at night.

D. To help send radio or TV information to the world.
