Seatrac is a chair on a moving walkway (移动步道). It can help wheelchair people get into the sea. When the people are in the sea, they can sit in the chair, look at the water or go for a swim. When the people want to get out of the water, they use the remote control (遥控器) to bring the chair back to the walkway.

Ignatios Fotiou is one of the inventors (发明者) of Seatrac. He has a wheelchair friend. His friend liked the sea, but he he couldn't go to the beach. His friend felt grieved. Fotiou wanted to make something to help wheelchair people get into the water easily. So he worked hard with others and then came Seatrac. It is solar-powered (太阳能的), and can keep running if the electricity (电) goes out.

This summer, about 220 beaches used Seatrac. Thanks to Seatrac, people in wheelchairs now can get into the sea.

27. The writer begins the passage by \_\_\_\_\_ .
