What do you imagine cities will be like in the future? Will we have smart buildings and flying cars? Or robots that will pick up our rubbish? What about schools? Will we still travel to school or will we study online from home? Perhaps all the buildings and roads will be underground and we'll just have parks and cycle lanes(自行车道) above. Maybe...or maybe not, but what we do know is that in the future, cities are going to have more and more people living in them.

More than half the world's people already live in cities, and by 2050, cities will become home to about 65 billion(十亿) people That's a lot of people and very little space! More people means that we're going to have more pollution, traffic and noise It also means that we'll need more homes, schools, hospitals, jobs and transport We'll need more water, oil, coal(煤) and electricity Oh, more ways to grow food for so many people!

Many cities are already planning for the future For example, Bristol is a cycling city in England You can ride a bike in cycle lanes which are separated from the traffic To save land, people in Singapore and Tokyo grow vegetables in tall buildings, called "vertical farms" And in Amsterdam in the Netherlands, there are "floating houses" built on water instead of on land!

8 What do we know about future cities for sure?

A Robots will pick up our rubbish

B There will be many smart buildings

C Students will study online from home

D More and more people will live in them

9 What is the second paragraph mainly about?

A Problems in future cities

B Plans about building future cities

C Advice on managing future cities

D Ways of feeding people in future cities

10 Which city has separate cycle lanes from the traffic?

A Tokyo

B Amsterdam

C Bristol

D Singapore

11 What do "vertical farms" and "floating houses" have in common?

A They are easy-made

B They are good-looking

C They are land-saving

D They are water-covered

【答案】8 D 9 A 10 C 11 C

【解析】

【导语】本文是一篇说明文，谈论关于未来的城市。

【8题详解】

细节理解题。根据“but what we do know is that in the future, cities are going to have more and more people living in them”可知，在未来，城市将会有越来越多的人居住。故选 D。

【9题详解】

段落大意题。分析第二段内容可知，主要介绍未来城市会出现的问题，故选 A。

【10题详解】

细节理解题。根据“For example, Bristol is a cycling city in England You can ride a bike in cycle lanes which are separated from the traffic”可知，布里斯托尔有独立的自行车道，故选 C。

【11题详解】

推理判断题。根据“To save land, people in Singapore and Tokyo grow vegetables in tall buildings, called ‘vertical farms’ And in Amsterdam in the Netherlands, there are ‘floating houses’ built on water instead of on land!”可知，为了节省土地，新加坡和东京的人们在被称为“垂直农场”的高层建筑中种植蔬菜。在荷兰的阿姆斯特丹，有建在水上而不是陆地上的“浮动房屋”。由此可知，二者的共同之处是为了节省土地，故选 C。
