

《贝壳元素在首饰中的应用》

摘要

以贝壳元素作为研究对象，主要研究贝壳的形态、色彩、宗教故事及其历史背景和设计价值。本文主要阐述从不同维度不同层次对贝壳进行研究，浏览大量关于贝壳的文献和图片，在自然生物——贝壳中提取特殊的机理、富含美感的动态曲线和丰富的色彩。有一定的理论基础后再提取元素用于首饰设计。将贝壳元素与首饰设计相结合。早在远古时期的人们已经会用贝壳作为装饰品，运用贝壳元素作为首饰设计的主要思路将体现了对大自然的生物美的认可和其融入现代设计的创新。

关键词：贝壳元素；造型；首饰设计

Abstract

Taking the shell element as the research object, this paper mainly studies the shape, color, religious story, historical background and design value of the shell. This paper mainly expounds the research on shells from different dimensions and levels, browses a large number of literatures and pictures about shells, and extracts special mechanisms, dynamic curves rich in beauty and rich colors from natural creatures -- shells. After a certain theoretical basis, extract elements for jewelry design. Combine shell elements with jewelry design. As early as in ancient times, people have been able to use shells as ornaments. The main idea of using shell elements as jewelry design reflects the recognition of the biological beauty of nature and the innovation of its integration into modern design.

Key words: Shell elements; Jewelry Design; modelling
