CHAPTER 01

Overview

Latin America and the Caribbean: Inflation rate from 2019 to 2029 (compared to the previous year)

Inflation rate in Latin America and the Caribbean 2029

Inflation rate in the BRICS countries from 2000 to 2029 (compared to the previous year)

Inflation rate in the BRICS countries 2000-2029

4

Description: Since 2000, China has generally had the most stable inflation rate of the BRICS bloc, with annual change fluctuating between negative one and six percent. In contrast, Russia's inflation rates reached the highest levels in the past two decades, particularly in the early 2000s, during the financial crisis of 2008, and after 2014 when its economy was affected by the drop in international oil prices and the sanctions imposed for the annexation of Crimea.
