Research on the development of new rural social endowment insurance in Anzhou District

Abstract : On September 3, 2009, the State Council put forward the “Guiding Opinions on New Rural Social Pension Insurance Pilots”. The reform of the new rural old-age security system has been launched nationwide and is expected to achieve the goal of full coverage by 2020. Mianyang City is located in the central part of Sichuan Province and is the second largest city in Sichuan Province. However, Mianyang City is still the city with the largest rural population and extremely aging population. As of the end of 2018, 4 counties in Mianyang City were listed as pilot areas, including 232,000 in Anzhou City and 182,400 people participated in the payment. Based on the relevant theories and meanings of rural social pension insurance, this article takes Anzhou as an example to analyze the current status of rural social pension insurance in Anzhou. The level of security is low and the enthusiasm for insurance is not high. Respond proTo this end, countermeasures to improve the rural social endowment insurance in Anzhou City were proposed to promote the construction of an urban-rural integrated social endowment insurance system.
