

WORK SUMMARY AND PLAN

2023

- 
- Overview of Meniere's disease
  - Treatment of Meniere's disease
  - Nursing of Meniere's disease
  - Prevention and Health Care
  - Case sharing and discussion

# Etiology and pathological mechanisms

Etiology

Pathological mechanisms

# Clinical manifestations and diagnostic criteria

## Manifestations

---

Symptoms include vertigo (a feeling of spinning or movement), dizziness, hearing loss, tinnitus (ringing in the ears), and a feeling of fullness in the ear.

## Diagnostic criteria

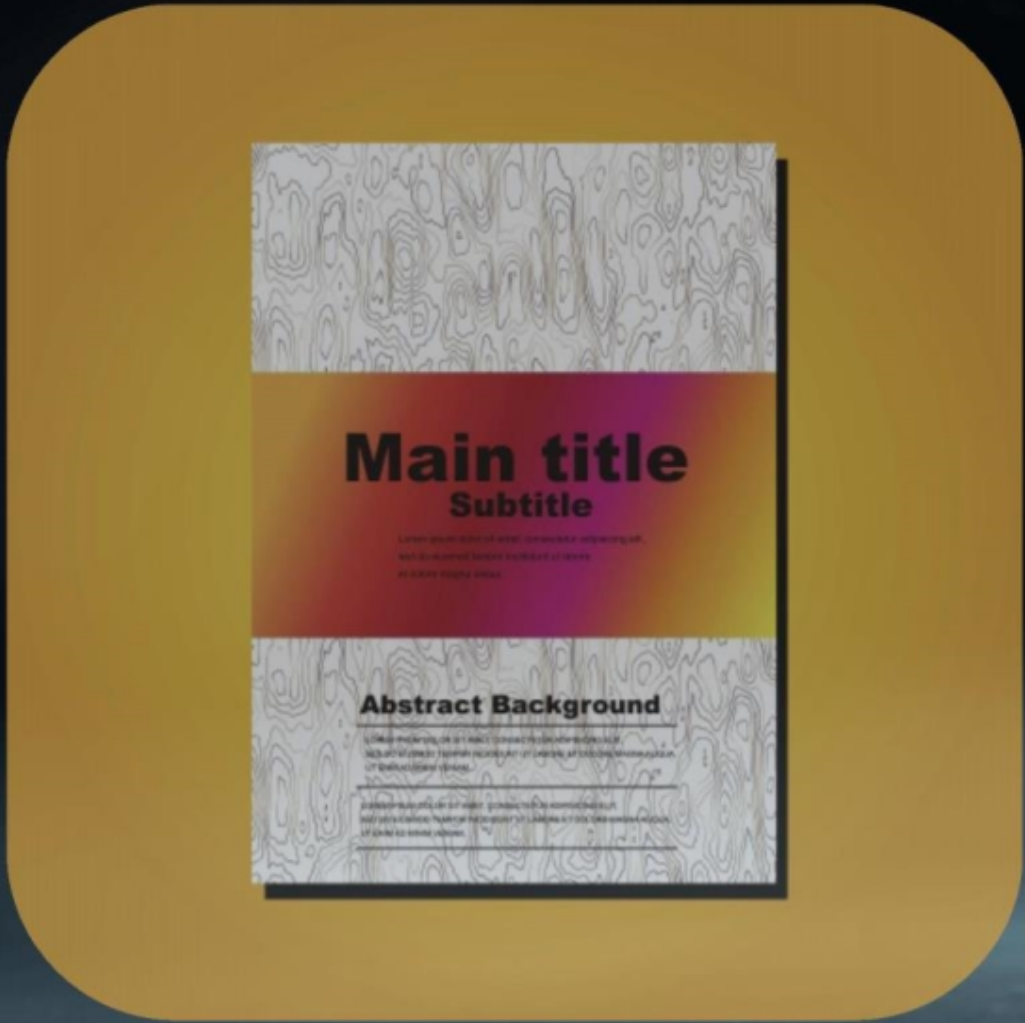

---

Diagnosis is based on symptoms, physical examination, and ruling out other possible causes of dizziness and hearing loss. Tests such as audiometry and vestibular function tests can help confirm the diagnosis.

# Drug therapy

Diuretics

Anti-inflammatory agents

# surgical treatment

Endolymphatic sac decompression

Labyrinthectomy

# Other treatment methods

Rehabilitation  
therapy

Lifestyle  
modifications
